Checked tower operation for any leaks and vibration, followed Eldon water lay up procedure and drained the tower for the season. used fire hose and cleaned the tower fills and basin. lubricated the fan motor. didn't change the gearbox oil because it is synthetic and is good for 2 more years. noticed some oil leak around the gearbox oil level gauge glass but couldn't pin pointed where is leak is? Cleaned it and will check it periodically to see if I can locate the leak before next spring. Cleaned the area around the tower.
